# What is WAD RECYCLAGEM?

---

WAD RECYCLAGEM is a new venture, set up to become a leading player in the Angola recycling business. It is important to salvage vitally needed scrap metal, and kickstart the local recycling economy.

## From cars...

Based in Luanda, our core business is the recycling of scrap metal from a range of sources including: End-of-life vehicles, consumer products, industry, construction and demolition.

## ...to cans

We operate an aluminium can recycling facility in Luanda. Various city-wide drop off locations allows people to deposit cans and receive a payment in turn.

For more information or if you wish to join our team of can pickers please contact us below.

WAD Group is the holding company for a select collective of subsidiaries which operate across various business sectors. Information on each individual company along with specific services on offer can be found by visiting [wad-group.com](http://wad-group.com)
